## SOCIAL MEDIA

Enjoy the moment.
Rather than
posting about
events and staying
on your phone
ENJOY THEM!

Try not to compare yourself to other people's social media accounts.

Create a
healthy
balance when
you use social
media. Take a
break

When you're in the club or with friends and family, put the phone on silent.

Keep your usage social and NOT all day & Night - try to connect face to face when possible.

Be careful who you follow and who you let follow you, there are dangerous people online

Look after your mental health. If you are struggling to stay away from social media, you may need a break.

Don't allow cyberbullying. Report it right away to your family or club
